

OUR VISION:

Success Starts Here

OUR MISSION:

Continuous student learning
in a caring, engaging
environment.

COMMITMENTS

To fulfill our mission, we make these commitments to our students, families, and our community. Above the three commitments, all of our work is rooted in providing educational equity. Staff will receive ongoing training focused on cultural competence, diversity, equity and inclusion. With support of the Equity Advisory Committee, we will continue to take action to implement board goals in policy 3212 – Ensuring Educational Equity.

Instructional Excellence

We prepare all students with the knowledge and skills to succeed in life and beyond graduation. Our commitment to provide instructional excellence encompasses a wide range of factors, including effective teaching strategies, the use of technology, the design of the learning environment, and the quality of instructional materials. When instructional excellence is achieved, students are equipped to achieve their full learning potential.

Systems of Support

We create a welcoming culture where all students’ academic, social, and emotional needs are met. Systems of support refers to the various resources and services that are put in place to help our school district achieve our goals and objectives. We will implement systems of support and services for students to help them succeed academically, socially, and emotionally.

Fiscal Stewardship

We manage and protect public funds and assets through efficient and effective use of available resources. We make informed decisions about the use of revenues, expenses, and assets with the goal of ensuring long-term financial stability and sustainability. Effective fiscal stewardship requires good policy-making, effective financial management systems and processes, and a commitment to transparency, accountability, and responsibility.
