- SLCC Update: New Swivel Technology - your ipad will automatically record the teacher in the classroom which allows a peer observation to be taped without someone else in the room filming.

- Staff Meeting; May 3rd - Justin M. to update everyone on the Swivel Technology/Cellphones in class (Expectations/tightening down)
- Transition Team Meeting: May 4th, 2:40, LH
- Next building ACT is April 28th. Wrap up student data by departments. Populate data sheet for our SIP. Then, work on your student growth data for your TPEP goals. That data is due on May 1.

### Updates

- Construction - the initial drawings have many incorrect items and contractors are having a tough time resolving some of the problems going on. Everything is currently on time and on budget.
- Every classroom will have 32 student desks, 32 separate chairs, a teacher desk and chair and an adjustable work station. If there's anything you think you may need in addition to these, please mark them for keeping.
- Tour of the new addition will be @ 1:30 on Friday, May 5th. Meet outside the Learning Hub.
- Master Schedule: Everything is scheduled, including electives. We are now looking at needed seats vs available seats.
