

Expectation for In-Person Learning:

Masks

- All students and staff on campus will be **required to wear masks** at all times.
- We may have a few extras, but the expectation is that students provide their own.

Social Distancing

- The number of students attending on-site will be limited based on department of health guidelines.
- Each student will have their own learning space, and be at least 6 feet from their peers as much as possible.
- Instructors will stagger the release of students to avoid large numbers congregating in the halls or bathrooms.

Cleaning

- Student learning surfaces and shared spaces including classrooms and bathrooms will be thoroughly sanitized daily. Instructors will also have additional supplies on hand to wipe down surfaces between sessions.
- It is helpful if students bring their own hand sanitizer if available as well to further prevent the spread of possible germs.

Health

- Before coming to class, students and staff should assess their health and any COVID-19 symptoms. If you, your student, or anyone in the household are exhibiting any of these symptoms, please keep the student home and notify your instructor.
- Upon arrival and before entry into the building, students will be asked daily by staff if they are exhibiting these symptoms and their temperature will be taken. Students experiencing these symptoms will be excluded from school per state guidelines. Parents will be contacted to pick-up their student and the school nurse will contact the family within 24 hours.

I have read and understand the COVID 19 In-Person Learning Requirements.
