WORK-BASED LEARNING AND EXTENDED LEARNING OPPORTUNITIES

Work Experience Opportunities
 CTE students in many cases can pursue what is called a "work-based learning" opportunity or an internship involving a job outside of school. "Work-based learning" experiences are always paid and students can earn high school credit. Internships are typically paid, but students do not earn academic credit. Individual schools and CTE teachers work with local employers to arrange these opportunities for their students, so your program instructor is the best source of information for what your own school offers.

Navy National Defense Cadet Corps: Preparing students for any career! Students will meet classroom learning objectives and physical fitness goals giving them opportunities to serve their community and become leaders in their class. NNDCC is identical to a JROTC program, but is fully funded by the school not the Department of Defense. The US Navy supplies the curriculum material for instructors and cadets, and the unit equipment necessary to execute the curriculum.
