

PROJECT PREP STEP #1

Show the instructor you've chosen an **original** photograph of **good quality** to crop, print, and grid.

- To earn **maximum points** (for originality), **your face** should dominate the photo for a **self-portrait**.
- Next best thing is a photograph **taken by you** - not "taken" *from* someone or taken *by* someone else.
- The photo must have **3-D subjects** with a **full scale of values**, good **contrasts**, and be **in focus** (sharp).
