### Life –Threatening Conditions

RCW 28.A210.320 requires every public school to prohibit the attendance at school for any and all purposes for any student with a "Life-Threatening Condition" who does not have medication or treatment orders and a nursing care plan on file at the school. A "Life-Threatening Condition" is defined as a health condition that will put the child in danger of death during the school day if medication or treatment orders and a nursing care plan are not in place. Students who are not in compliance with RCW 28A.210.320 are prohibited from attendance until such time that they come into complete compliance. Any parent/legal guardian who contests the schools decision has the right to due process procedures as found in Tumwater School District Policy 3200.

District Policy for Administering Medication to Students: Medications, prescriptive or over the counter, may be administered to students by building administrators or their designee(s) only with **WRITTEN PERMISSION of the parent/guardian AND a Licensed Health Care Provider's Order for Medication at School**. I understand that licensed health care providers have Authorization for Medication forms or the form is available at the Main Office or online at the New Market website.

If your child is ill/injured at school, we will contact the parent/legal guardian or emergency contact person, if at all possible, and call 911, if the injury or illness warrants it. I consent to the release of medical information related to my child, to school personnel, as needed, to ensure his/her safety at school. I understand that it will be my responsibility to arrange for payment for medical care, should my child be ill/injured. I have read and understand this form.
